

Logan Olson

Software Developer

Objective

To obtain employment in an environment that encourages professional growth, exposes me to a conventional techstack, and enhances my understanding of current architectures & software engineering principles.

Work Experience

Software Developer at Moonlite Media

May 2024 — Present

- Implement responsive, SEO-friendly interfaces with Next.js and TailwindCSS for optimal user experience across devices
- Work with PostgreSQL for efficient data handling and complex query support in a high-performance backend
- Integrate AI to automate creative media generation processes

Software Developer at RoofBundle

May 2021 — July 2022

- Piloted the beginnings of RoofBundle with 2 other developers using the AGILE framework and sprints through JIRA.
- Worked with GitHub actions and AWS CodeDeploy to deploy and manage CI/CD
- Built semantically-structured websites with ReactJS, and styled with Tailwind
- Supported SwiftUI development with our dedicated mobile developer
- Used End To End testing to ensure detailed guidelines were met.

Front End Developer at Arctic Research Foundation (Coop / Intern)

October 2020 — April 2021

- Maintained and worked with an existing code base and used AWS CodeCommit for source control management.
- Implemented and used RESTful APIs for populating data on a web portal
- Designed and constructed wireframes through Adobe XD.
- Worked with AWS ECS, DynamoDB & Lambda, ReactJS with Tailwind to develop an open data catalog for public use.

Line Cook / Kitchen Supervisor at Boston Pizza

November 2011 — October 2020

- Employee of the Year 2016 for HoH (Boston Pizza): Awarded the Employee of the Year Award in 2016 for the Heart of House (Kitchen staff).
- Help manage and run a team-based environment to ensure that orders are done in a timely manner and to the proper standards that result in a good experience for restaurant guests.
- Assist in keeping track of a 200+ item inventory on a weekly basis that positively effects the company's daily and monthly performance.
